NOTES AND PERSONALS OF SOCIETY

Lenore Burke Phone 245

At times a fragrant breeze comes floating by.
And brings, you know not why,
A feeling as when eager crowds await

Before a palace gate
Some wondrous pageant; and you scarce would start,
If from a beech's heart
A blue-eyed Dryad, stepping forth, should say,
"Behold me; I am May!"

Women Should Take Warning.

If the statement made at a New York Assembly of women, that healthy American women are so rare that they are almost extinct is true, it is time for the women of America to take warning and look to their health. It may be headaches, backaches, dragging down pains, nervousness, mental depression that are tell-tale symptoms of some organic derangement for which Lydia E. Pinkham's Vegetable Compound—a simple remedy made from roots and herbs—is a specific and may be relied upon to restore women to a healthy normal condition.

I want to state to the people of Guthrie that our differences were not caused by Geo. M. Frazier's killing beef that was unfit for slaughter as I am in a position to know that all cattle inspected by me for Mr. Frazier were as good as can be bought in the state.
Our differences did not arise from the quality of the cattle which he slaughtered.

Highland Theater.

Chas. Gramlich's Billiken Girls Co. opened at the Highland for a week's engagement Sunday and have made a hit with the people here. The entire company is clever; the chorus one of the best seen here in some time. Charlie Gramlich, the comedian, reminds one a lot of Charlie Chaplin. The costumes are neat and clean. Helena Hall, the leading lady, is clever, pleasing and refined. A good singing trio made a big hit and all in all it's a good show, put on by good people. Tonight's bill, "The Night Before Christmas," has been played in the best houses in all the large cities. Gramlich says it is one of his best. Four reels of pictures are also given.

Why Burns Didn't Land.

Burns Hegler, of Wichita, and who last week became associate publisher of the Wellington Journal, once asked Dave Leahy for a job reporting. Dave, after having disposed of various preliminary questions, asked: "Do you inhale?" Burns, already seeing visions of his immediate attachment to the stipend roll inflated his chest and responded: "I never touch a drop." "Well, you ought to drink a little," sagely quoth Dave as he started in on another paragraphic platitude.—Wichita Eagle.

WANT "RAT DAY" DESIGNATED

Tulsa, Okla., May 4.—The city commissioners will be petitioned to designate a "Rat Day" when citizens of Tulsa will be called upon to exterminate rodents. Rats have so infested the city during the last year as to be a menace to health. Complaints have been registered and many citizens have requested special permits be granted to discharge firearms within the city limits in order to shoot the pests. It is believed that if a day is devoted to killing rats their number will be greatly reduced.
